JOHN TUCKER

DATA INTEGRATION SPECIALIST

OBJECTIVE

Utilise data integration skills to work in a timely and professional manner, establishing rapport with senior management, external partners, system users and colleagues whilst embracing new technologies or methodologies to enhance effectiveness.

EXPERIENCE

HARVEYS FURNISHING LTD

Technical Architect Sep 2018 – Nov 2020

Technical point of contact for Talend. Enhancing existing integration projects, selecting, and working with external partners to create interfaces for replacement EPOS, website, and ERP systems.

Project Technical Lead Nov 2015 – Sep 2018

Analysed user requirements and developed proof of concepts for data control. Oversaw selection process for new ESB (Talend) and began specifying and developing data integration projects .

Infrastructure Analyst Aug 2010 - Nov 2015

Work on the implementation of Microsoft Dynamics into the company, focusing on migration of sales data. Map existing business processes using ITIL format and develop interfaces to existing ERP using VB.NET and ASP.NET.

Database Administrator Nov 2008 - Aug 2010

Oversaw maintenance and configuration of SQLServer estate. Planning migration to new virtual environment and handover to infrastructure partner. Used SQLServer 2000, 2005 and 2008.

BI Developer Dec 2005 - Nov 2008

Working with a small team of juniors and an external partner to refactor the company's existing reports using SSAS and SSRS.

Senior Analyst Programmer Aug 1999 - Dec 2005

Analysis & development in Cognos Powerhouse, Visual Basic 6 and VBA. Mentoring junior staff and maintaining close links with external software partners.

Analyst Programmer Sep 1997 - Aug 1999

Developing business back end systems using Progress 4GL and an in-house EPOS system in C++.

MARCONI COMMUNICATIONS

Analyst Programmer Apr 1993 – Sep 1997

Using Progress 4GL, Turbo C++ and Delphi for backend and radio traffic invoicing applications.

KENT TRAINING AND ENTERPRISE COUNCIL

IT Consultant Sep 1991 – Apr 1993

Implementing system to link students with work experience placements and maintain legacy apps in Ingres and Cobol.
