JOHN TUCKER

DATA INTEGRATION SPECIALIST

OBJECTIVE

My latest experience has been working in data integration using Talend DI and ESB products I also have recent experience of SQL and, NET technologies. I am looking for contract-based opportunities to apply this knowledge.

EXPERIENCE

TECHNICAL ARCHITECT/SENIOR DEVELOPER

Sep 1997 – November 2020

A variety of development and technical roles for Steinhoff UK culminating in the last five years as technical architect specializing on data integration. Working in collaboration with a couple of external agencies I provided technical information and backup to the project managers and IT senior management whilst retaining a hands-on role in the deployment. Skills include C++, Visual Basic, Cognos Powerhouse and Powerplay, VB.NET, ASP.NET including MVC5, SQL Server 2000 to 2017, Microsoft BI Stack (SSRS/SSAS/SSIS) and particularly for the last 3-4 years Talend DI and ESB.

VARIOUS JUNIOR IT ROLES

1991 – 1997

Developing a system to link students with work experience placements and maintaining legacy apps built in Ingres and Cobol for Kent Training and Enterprise Council. Progress 4GL, Turbo C++ and Delphi for Marconi Communications.

SKILLS
